

GMAIL

Use the opportunity to have your own professional MK email which you will never forget, for ex. info@yourcompany.mk [or firstname@lastname.mk]

Inform us at info@registrar.mk which will be your new MK email with your MK domain and what is your Gmail, in order to be forwarded.

Example:

Your domain is pista.mk, the new email you have decided to be is info@pista.mk and your gmail is pista@gmail.com

With this service all emails sent to info@pista.mk, will be automatically forwarded to pista@gmail.com

- Email forwarding as described above is for FREE.
- [catch] is included for FREE- in case someone is sending by mistake to for ex. info22@pista.mk, instead of info@pista.mk, it will be successfully forwarded even so.
- Also opportunity exist to forward for FREE your MK domain to any Internet site, for ex. your Facebook page.
- For registration or transfer of MK domains, see at www.registrar.mk

Your MK email as default on Gmail:

[When sending from YOUR Gmail, the receiver will see you MK email]

Click on , then Settings and Account and Settings.

Click on Add another email address you own, and add your new MK email.

Click Next step. Thereafter add SMTP Server and finally Add account.

You will receive an email from Google, click on the link to verify.

Repeat same as above and set your new MK email as default by clicking on default.

SMTP Server is needed at Gmail when own email is added. SMTP Server can be rent from MKPartner for 1€ per month. With this service you will receive also support in case anytime something does not work with your email- a kind of email insurance.

Inform us to rent SMTP Server from MKParnter for 1€ per month.

Registrar.MK

#1 Registrar for MK domains
